WHEREAS the Council of the City of Victoria deem it necessary and requisite for the protection of the persons and property of the public that the Regulations hereinafter contained shall be made for operating Street Railways in the City of Victoria:

Therefore the Municipal Council of the Corporation of the City of Victoria enacts as follows:—

2. No car shall be propelled at a higher rate of speed than 4 miles an hour when crossing any bridge or trestle work, and when on a bridge or trestle work no car shall approach closer to any other car than 200 feet.

3. Should there be any foot passengers on any crossing before the car approaches the same, the car shall be stopped, so as to permit such passengers to cross.

4. Each car is to be supplied with a gong, which shall be sounded by the motorneer or the driver when the car approaches to within fifty feet of each crossing.

5. The cars shall not be wilfully driven against any person or animal whilst being upon or crossing any of the streets of the city.

6. No passenger shall be allowed to ride or travel on the roof of any car.

7. No car shall carry more passengers than the same can conveniently accommodate, and the number of passengers each car can accommodate shall be previously fixed and determined by the City Engineer or Surveyor, and indicated upon a card posted inside, and painted in plain figures on the letter board outside of each car.

8. The route through which each car has to run shall be conspicuously marked, affixed or indicated in letters on the outside of the car.

9. After sunset the cars shall be provided with coloured signal lights on the front and rear of the roof, and the route shall be indicated in letters on such lights.

10. Smoking shall only be allowed on the front platform of closed cars, and the rear seat and platform of open cars.

11. 12. When it shall be necessary to stop at the intersection of streets to receive or leave passengers, the car shall be stopped so as to leave the rear platform slightly over the last crossing.

13. Conductors, or motorneers, or drivers, shall bring the cars to a stop when passengers get on and off cars: Provided, however, that the cars shall only be required to stop at public crossings, or at intersections of public streets, or at such other regular stopping places as may be from time to time fixed by the Company.

18. The said Company shall run its cars over the whole of the streets mentioned in the Schedule to the agreement in the Act respecting the Victoria Electric Railway and Lighting Company, Limited, 57 Victoria, chap. 63, Statutes of British Columbia, on which tracks are now laid, or may hereafter be laid, to the present city boundary lines on said streets.

19. On or before the 31st March, 1897, the said Company shall provide, to the satisfaction of the City Engineer or Surveyor, all its cars run on any of the said streets, with a guard, protector or fender upon the front end of each car, which guard, protector or fender shall extend at its foremost point as near to the road bed as shall be practicable, and shall be so constructed and adjusted that any person or object struck by any such car while in motion may be either raised from the ground by the said guard, protector or fender, and carried along by the said car until the same can be stopped or be pushed from the track.

20. No person, when not in danger of injury, shall voluntarily get up on any such guard, protector or fender attached to any car, as hereinbefore provided, whether such car be standing still or in motion.

23. In case the said Company shall fail at any time to comply with or contravene any of the conditions or obligations imposed upon it by these regulations, the said Company shall be liable to and incur a penalty not exceeding \$50 (fifty dollars) for each and every such contravention of any of the said conditions or obligations, and the enforcement of this section shall devolve upon the members of the police force of the city.
